## SETGYC BOARD: ECR / STUDENT MEMBERS

The SETGYC is pleased to invite for the position Student and Early Career Researcher (ECR) member of the SETGYC Board with special responsibilities for young investigators. The SETGYC Board consists of 10 eminent researchers in the field of gene and cell therapy and co-opted student and/or ECR Board members. The creation of the positions of co-opted members for students (with whom the ECR Board member will collaborate) and for ECRs is intended to advise and support the SETGYC in building its student and post-doc community through memberships, (satellite) events and training opportunities. The position of ECR member is an ex-officio role whereby you would be invited to participate in Board meetings, have influence but would not be able to vote.

The term would be for **2 years effective from 1 July 2026**, with the aim of a hand-over period in the last 6 months.

### You will contribute:

- review and suggest membership benefits for our ECR members
- suggest and help implement SETGYC activities specifically benefiting young investigators
- locate and engage with ECR groups in labs and institutions world-wide to encourage and manage contributions to our events, website and social media
- good knowledge of social media is important
- manage the SETGYC booth activities at the SETGYC and ESGCT Annual Congress

### Benefits:

- named member of the Board and position of influence to grow SETGYC's work with ECRs
- attendance and influence at Board Meetings
- complimentary membership to the SETGYC
- complimentary attendance at the Annual Congress of SETGYC and ESGCT, including cover of travel and accommodation expenses
- access to and full support of the LUMINA association management team

### Eligibility:

- PhD student or post-doc in the first 5 years post-PhD without tenure or other permanent academic appointment
- support of your line manager (this role will take approx 2 hours per week plus time to attend and work at Congresses)
- commitment to the full 2-year term

### Application process:

Please send the following to us by email ([office@SETGYC.eu](mailto:office@SETGYC.eu)) by **1 June 2026**:

- letter of intent with CV
- letter of recommendation and support from your line manager
- outline of ideas to engage the ECR community throughout the year and at SETGYC events
- outline and presentation of any experience in similar projects

Successful applicants will be contacted to arrange an online interview.
